

YOUR PARTNER IN TEACHING

Interactive Whiteboards: the fast track to establishing I.C.T. as a powerful teaching and integration tool (ICT)

In this **self-paced on-line course**, participants will learn all about **how an interactive whiteboard functions**, the various whiteboard **options available and its potential to revolutionise classroom teaching**. Teachers will have an opportunity to engage with exciting dynamic interactive whiteboard content in order to appreciate the potential of this powerful technology to enliven & enhance classroom lessons, especially in the areas of literacy, mathematics, S.E.S.E. and the arts. Interactive Whiteboards will be examined as a valuable part of the technology mix in a technology promoting school.

The on-line format of the course enables you to **study when and where you want** to learn. Content is divided into 5 modules which you can complete in any order **within an 4 week period** (1st November - 31st November).

Participants are encouraged to interact with one another using the communication tools (forum, chat, e-mail) provided by the CPD College learning system. Active facilitation throughout the course provides expert interaction, guidance and feedback for all participants. Assignments and questions which call for critical reflection, self-analysis and a reasoned response punctuate this highly interactive web based course.

On completion of the course the participant will be presented with their own time record, exercise content and approval by the course facilitator as their CPD record to keep.

The Autumn series do not qualify for EPV days

Learning outcomes:

Through engagement with the course content and through the sharing of successful strategies for the integration of I.C.T. into classroom teaching, we anticipate that the knowledge and insights gained by participants will positively impact on classroom teaching in the coming year.

Modules:

ICT01 - What constitutes an **Interactive Whiteboard, how it functions and the options available.**

ICT02 - How interactive whiteboards can be used to **support literacy in an integrated way.**

ICT03 - How interactive whiteboards can be used to **support the teaching and illustration of mathematical concepts** in the classroom.

ICT04 - How interactive whiteboards can be used to **support and enliven classroom lessons across all subjects of the curriculum from SESE to the Arts.**

ICT05 - **What constitutes a technology promoting school**, where I.C.T. is used to enhance teaching & learning, and where interactive whiteboards can be an invaluable part of the technological mix.

Course duration: 20 hours
